

Aircraft Support Industries (ASI) announces the completion of the Maintenance Hangar Complex for Nagaworld, Cambodia

In August 2016, Aircraft Support Industries successfully completed the Maintenance Hangar Facility for Nagaworld Ltd, Cambodia. ASI Project Manager Dave Thomson mentioned “For all those involved in this project I would like to thank you for your time and effort and we handover to NW knowing they are receiving a top class cost effective Hangar Project and one that everyone involved with will be proud of”.

In 2014, ASI was contracted by Nagaworld Ltd, Cambodia to design and construct a light Maintenance Hangar to international building standards, to meet their unique operational business model. The 5-star Hangar Facility will consist of a multi-story 25m airside frontage x 45m deep FBO building, and a 100m span x 45m deep clear span light maintenance hangar, accommodating a fleet of corporate and business jets up to and including Airbus A320 aircraft.
