

## News Announcement

### Aircraft Support Industries Exhibits at the Singapore Airshow 2016

Aircraft Support Industries (ASI) exhibited at the Singapore Airshow from the 16<sup>th</sup> – 21<sup>st</sup> February 2016, this is the fourth year of participation at the Airshow. ASI showcased their specialist technology, knowledge and skills to deliver custom-designed Aircraft maintenance facilities, associated systems and equipment to suit the exact requirements of the industry service providers. Staff from ASI's offices in Sydney, Dubai, Kuala Lumpur and Singapore attended the Airshow.

ASI Business Development Director, Richard Gibbons, said "At the Show I was able to meet many new and existing clients to learn about their future development plans. The opportunity to network with other Show participants was also of great value."

The Singapore Airshow is Asia's largest and one of the most important aerospace and defence exhibitions in the world. ASI's exhibition booth showcased the specialist products and services offered to the industry.

To be continued...

In early April 2016, ASI also exhibited at the MRO Americas Show in Dallas. The American MRO sector is enjoying a revival with many new hangars being planned for commercial, military and corporate customers. ASI sees an opportunity to provide their specialist technology and services to this market, not only directly, but also to Asia Pacific operators that are planning to expand into the region.

### **About Aircraft Support Industries**

Aircraft Support Industries Group is a world leader in the design and construction of Aircraft Maintenance Facilities having designed and built more than 80 worldwide. ASI has the “in-house” expertise required to design, build and deliver state of the art facilities. This expertise includes facility planning, architectural, structural engineering, electro mechanical engineering together with highly experienced teams of construction professionals required for successful project delivery.
